Profile

Full-stack developer with practical experience designing scalable web applications using the MERN stack. Built and deployed 6+ production-ready reliable, high-performance solutions under real-world conditions through internships and military service projects. Also have Strong foundation in software engineering principles, problem-solving and clean code backed by a bachelor's degree in computer engineering. Currently advancing skills through an Intensive Full-Stack MEARN Training Program at the Information Technology Institute (ITI).

Internships

- **Intensive Training Program** June 2025 – Dec 2025
Information Technology Institute (ITI), Full Stack Development using MEARN Track
Gained hands-on experience in building end-to-end web applications,
Developed multiple projects following industry best practices in agile development, version control, and deployment workflows. Use modern technologies, and leading teams to deliver robust, responsive and scalable web apps.
 - **Software Developer intern - Storky-App Technologies** Aug 2023 – Mar 2024
Contributed to an online course platform serving 3K+ users by building and maintaining key features using React and Node.js.
Collaborated with cross-functional teams to Implemented responsive UI components and optimized API integrations, enhance platform performance and ensure scalability.
 - **Trainee - Albonyan Almarsos Internship** Dec 2022 - July 2023
Completed 7-month practical training covering HTML, CSS, JavaScript, React, Node.js, and MongoDB and git — culminating in a full-stack capstone project deployed on the web.
Project: Think Pad – A MERN App with localization and theme features
-

Experience

- Full-Stack Developer (Military Service) May 2024 – June 2025
Developed and maintained 3+ internal web systems used daily by 200+ personnel, improving operational efficiency by automating manual workflows
-

Freelancing Experience

- Freelance Full-Stack Developer (Freelancer Platform) July 2025 – Sep 2025
Delivered a CRM system for a construction firm that reduced project tracking time by 40% and enabled real-time collaboration across 5 departments, implementing role-based access control, real-time dashboards, and a secure file management system.
Tech Stack: React.js, Node.js, Express.js, SQLite, and Tailwind CSS.

Project Samples

Happy Shop – MERN Ecommerce Platform

- Developed a comprehensive ecommerce system featuring product catalogs, advanced search & filtering, persistent shopping cart, reviews, coupons, order management, and admin dashboard.
- Integrated JWT authentication, role-based access control, secure media uploads (Multer + Sharp), and transactional emails.
- Tech Stack: React.js, Node.js, Express.js, Socket.io, MongoDB, Multer, Nodemailer, Stripe

Realtime-Chatapp

- It is a chat application using React.js, node.js, MongoDB, socket.io allows private real-time chat messaging between users and creates contacts list of your friends, also can search for other users to start chatting with them.
- Tech Stack: React.js, Node.js, Express.js, Socket.io, MongoDB.

Diagnose-Me

- A healthcare application that provides early diagnosis tools, medication guidance, doctor consultations, and medical blogs.
- Built a real-time video call and Booking Service API, implementing secure authentication, authorization, JWT handling, and date manipulation for appointment scheduling
- Tech Stack: React.js, Node.js, Express.js, Socket.io, MongoDB.

Education

Bachelor Of Science, Computer Science and Automatic Control.

Faculty of Engineering - Tanta University - very good

Aug 2018 - Jul 2023

Skills

Web Development:	HTML, CSS, JavaScript (ES6+), TypeScript, PWA, OOP
Frontend Frameworks:	React.js, React Query, Redux, GSAP Animation, Next.js, Angular
Styling Tools:	Tailwind CSS, Styled Components, Material UI, Bootstrap, Sass
Backend:	Node.js, Express.js, Socket.io
Databases:	MongoDB, SQL, firebase
Deployment:	Git, GitHub, Vercel, Netlify, Render
Soft Skills:	Communication, Presentation, Teamwork, Problem Solving, Leadership

Achievements

- Won fifth-place at Tanta-University Qualification for ECPC Competitions | Aug ,2021
